

Gulf Business

TOP 100 INDIANS

2025

Indian influence runs through every major sector — from healthcare and education to construction, retail, finance, and technology. Indian-founded and led enterprises have become powerhouses, shaping industries and creating thousands of jobs.

In this special feature, *Gulf Business* presents 100 of the most recognised Indian business leaders in the UAE and beyond: an **alphabetical showcase** of visionaries whose innovation and leadership continue to define the business landscape. The list celebrates achievements across economic contribution, influence, expansion, and community impact.

ATIF RAHMAN

FOUNDER AND CHAIRMAN, ORO24 DEVELOPMENTS

Rahman is the founder and chairman of ORO24 Developments, a Dubai-based real estate company focused on sustainable, affordable, and lifestyle-driven communities. With over 23 years of experience across residential, commercial, retail, and serviced apartment projects, Rahman has successfully navigated three market cycles, earning recognition for his disciplined governance and risk-management approach.

Since launching ORO24 in 2021, Rahman has overseen eight new developments, adding to a wider portfolio of 32 projects and more than 11,750 units

RAHMAN HAS
OVERSEEN EIGHT NEW
DEVELOPMENTS,

PORTFOLIO OF
32 PROJECTS AND
MORE THAN 11,750
UNITS WORTH
OVER DHS11.5BN IN
TOTAL SALES.

worth over Dhs11.5bn in total sales. His developments are spread across key Dubai communities such as Arjan, Business Bay, Jumeirah Village Circle, Al Furjan, Liwan, and Sheikh Zayed Road. The group's flagship community, TORINO by ORO24 in Arjan, features 625 apartments designed for urban professionals and families, combining quality amenities with energy-efficient features.

Rahman's integrated business model — spanning land acquisition, planning, design, finance, and delivery — reflects his belief in long-term value creation. Beyond development, he has introduced innovative payment solutions such as the 1 per cent payment plan to enhance housing accessibility and support end-user ownership. ●
